

The [VUMatching](#) system allows you to check whether you're making the right degree choice. It's a two-step process:

1. Completing a mandatory digital matching questionnaire

The questionnaire enables you to check whether you have chosen the right degree programme.. You will need to fill out the digital matching questionnaire in VUnet before you participate in the online matching activity

2. Participating in a mandatory online matching activity

The online matching activity aims to give you a realistic impression of the programme, allowing you to experience whether the programme matches your expectations. Afterwards you will receive a personalized recommendation enabling you to make your final decision with confidence. Once you are conditionally admitted by VU International Office, you will receive an invitation to participate in the online matching activity from mid-April onwards. Keep an eye on your inbox: the e-mail invitations will be sent to the e-mail address you provided when you registered.

Please note that your participation in the online matching activity is mandatory - if you have not taken part or did not complete it, you cannot register for the Bachelor's programme Psychology. The course will only be accessible during 7 days. The activity will take you a few hours to finish so reserve half a day in your agenda from 4 June 2019, 12 noon (GMT) until 11 June 2019, 12 noon (GMT). There will be no second chance for finishing this activity.

There are no costs involved and the results are an advice and not binding, if you apply before 1 May. If you apply after 1 May, the recommendation is binding. If you receive a negative binding recommendation, you cannot register for this Bachelor's programme.

For general information about matching please visit [VU Matching \[Dutch\]](#) or [VU Matching \[English\]](#). If you have questions about the matching activity, please contact the matching coordinator matching.fgb@vu.nl
