Privacy Statement VU online matching activity

Vrije Universiteit Amsterdam (VU) offers prospective students the opportunity to reflect on the chosen bachelor’s programme: is it the right programme for you? More information about the goals of matching can be found on our website.

Your privacy is important to us. This Privacy Statement explains what personal data the VU collects and how the VU uses it.

VU Matching has two steps: a digital questionnaire in the student portal VUnet and matching activity. Some programmes offer an online matching activity. This privacy statement concerns online matching activities. It applies to all prospective VU students who participate in an online matching activity.

Most online matching activities will be offered in Canvas, the Learning Management System of VU Amsterdam.

Please also read the Privacy Policy regarding the use of Canvas and/or the Student personal data processing regulations.
